

26-Nov-2018

PCN #:E-18-016938

Subject:AMPSEAL Sealed Connector System - Plug assemblies

Description of Change: This PCN is an addendum to previous AMPSEAL PCN numbers E-18-008460 and E-18-016185: In an effort to maximize our capacity, our intent is to move the current molding and assembly of AMPSEAL plugs from the current TE molding and assembly manufacturing locations to a new single TE manufacturing location in Empalme, Sonora, Mexico. This second TE facility is located in the same compound as the current TE facility.

Reason: This product line has seen extensive demand increases from our customer base. TE is investing to ensure that the current situation is corrected, as well as for the future, consistent with our goal of on-time delivery of defect free products. This move will help drive improvements in deliveries to our customers and increase output of AMPSEAL products. If the customer requires a PPAP submission, please place the request with ict-ppap-request@te.com. If there are any further questions or concerns, please contact your TE Sales Contact or Account Manager directly

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
