

## HARTING Han-Eco® B

High-performance plastic connectors in standard industrial sizes

## Han-Eco® B

The Han-Eco® B series is a new series of hoods and housings in the Han-Eco® portfolio that comes in sizes 6 B – 24 B. This series is completely compatible with the Han® B industrial standard. Standard inserts and modules in conjunction with the hinged frames from the Han-Modular® portfolio may be used.

Compared to Han® B metal housings, the weight advantage is up to 50 % depending on the combination you choose.

The rear mounting option ensures a quick and easy assembly. Installation technicians do no longer have to conduct cables through the bulkhead mounted housing, before assembling the contact inserts. Instead, pre-assembled insulation bodies can be directly snapped into the housing from the rear.

Outdoor version available for extreme environmental conditions

Backward compatibility with Han® B metal hoods and housings

Rear mounting of inserts speeds up installation

Excellent mechanical robustness combined with minimal weight
