

USB Powered Compact Signal Booster 27815HSR

1 Way Booster with 4G filter

Features & Benefits

- **BOOSTS TV or RADIO SIGNALS** - Ideal for improving picture quality and channel reception, perfect for Freeview and DAB signals
- **EASY INSTALLATION** - Set-up in seconds, simply plugs into the USB and the Antenna In ports on your TV, with an aerial line in for your existing aerial or cable
- **USB POWERED** - Fits out of sight behind your TV and requires no separate power supply unit as it is powered by one of the USB ports on your TV
- **4G FILTERING** - Provides a typical 45dB protection from signals produced by 4G mobile phone masts reducing possible interference and signal loss
