ON-THE-FLY TUNING

Slow down and speed up your character in a gaming space, as a game flow requires! Due to the high-precision sensor PIXART 3325, you can quickly switch between 1200-2400-3600-4800-6000-10000 DPI. The driver of the mouse also allows to choose any private value of DPI

BRAIDED CABLE WITH FERRITE FILTER

Enjoy maximum precision and play without interruptions! The ferrite filter suppresses all possible electrical noise and helps to reach maximum efficiency and sharpness.

FULL CUSTOMIZATION

Totally unlimited opportunities for personal settings for the game of any genre. Full customization of the mouse allows you to create a player profile, assign macros, change button assignments, response rate, DPI. The victory is guaranteed in any game with any character!

ACCURATE RESPONSIVE OPTICAL SENSOR

Hi quality optical PIXART 3325 sensor provides excellent gaming experience with the features of high speed & resolution to fulfill gamers need.

ADJUSTABLE WEIGHT CONTROL

Customize your mouse using removable 20 g (4 x 5g) extra weights for a personalized feel and control.

ONBOARD MEMORY PROFILES

Using the built-in memory module, you can save your gamer profile and transfer all your custom settings to any computer.

12 MMO PANEL

Get the easy access to all 12 primary MMO buttons under your thumb. MMO buttons can be programmed to in-game macros or as complex actions, in order to perform a certain action in game.

CANYON TWIN SURFACE COATING TECHNOLOGY

Another original feature created by Canyon team is Twin Surface – double rubberized coating, which provides durability, comfortable and secure grip and prevents from fingerprints on the surface.
