

Part Number: PS-I2R

Description: USB Inspection Light

The PS-i2R is the next generation of USB rechargeable inspection lights. It has a Li-ion rechargeable battery which can be charged quickly and efficiently through its side charging point. With a 275 Lumen output from its CREE SMD LEDs, it delivers a strong white light for working on any number of tasks. In addition to the main light it has an LED torch on its head. This provides a pointed beam which can be used for tasks that require a more precision, longer ranged beam. A unique feature of the PS-i2R is its 200° rotating magnetic stand. This can be used to position it in numerous locations, ensuring handsfree use and enabling it to cover hard to reach areas with its strong light. This is in addition to its magnetic pocket clip, which can also offer a convenient way to carry the unit around.

The battery used on the PS-i2R is high quality. It offers a fantastic runtime of 6 hours on full power and can be charged rapidly with a USB cable into any mobile phone charger, laptop or USB charge point.

Additional information

Battery	<i>1600 mAh Li-ion</i>
LED	<i>CREE</i>
Lumens	<i>275</i>
Beam Distance	<i>18m</i>
Run Time	<i>6 hrs</i>
IP Rating	<i>IPX4</i>
Weight	<i>105g</i>
Height	<i>160 mm</i>
Width	<i>30 mm</i>
