Eaton Global Pushbuttons product discontinuation notice for A22 pilot devices

Dear Valuable Customer:

This notice is to inform you that A22 pilot devices will be discontinued effective December 31, 2019, and all final orders must be placed before August 1, 2019.

The A22 pilot devices were developed and launched in the 1980s, and they have already been replaced by the M22 series. See below our current A22 offering and M22 comparison for your use:

Catalog Number	M22 Comparison
A22-GL130	No direct reference, refer to catalog for substitute
A22-LED-Y	No direct reference, refer to catalog for substitute
A22-EK10	M22-K10
A22-EK01	M22-K01
A22-EK10C	M22-KC10
A22-EK01C	M22-KC01
A22-RWK1R	M22-WRK
A22-RLT-GN	M22-DL-G
A22-BE6	M22-A
A22-EC11	M22-CK11
A22-EC02	M22-CK02
A22-EFC	No direct reference, refer to catalog for substitute
A22-RAS-X	No direct reference, refer to catalog for substitute
A22-I1M	M22-I1
A22-I2M	M22-I2
A22-GL24	No direct reference, refer to catalog for substitute
A22-LED-R	No direct reference, refer to catalog for substitute
A22-LED-Y	No direct reference, refer to catalog for substitute

Note that the M22 series can be ordered via Eaton's order entry system (VISTA), and they are readily available and stocked in our warehouses. For assistance with the A22 series discontinuation, please work directly with the following contacts:

- Your locally-assigned sales engineer
- Eaton's Technical Resource Center at 1-877-ETN-CARE (386-2273).

Further information about pilot devices and the catalog can be found at www.eaton.com/pushbuttons and www.eaton.com/M22
