

SHINING 3D®

EinScan Add on Modules & Accessories

Product	Description
EinScan-Pro Industrial Pack EinScan-Pro 2x & 2x Plus Industrial Pack	<p>The EinScan-Pro Industrial Pack consists of the tripod and turntable. In combination with your EinScan-Pro or EinScan Pro+ 3D scanner, you can make the most detailed and complex scans that you can imagine.</p> <p>The EinScan Pro industrial pack scanner is very intuitive and performs highquality scans. The industrial pack including a turntable and a tripod offers 4 modes of scans different to fit all your needs and all sizes and shapes of objects.</p> <p>Using structured light technology, the EinScan Pro industrial pack is for indoor use only. To scan glossy, dark or translucent objects, it is advisable to use scan spray for best results.</p>

<p>EinScan-Pro Colour Pack EinScan-Pro 2x Colour Pack EinScan-Pro Plus Colour Pack</p>	<p>The colour pack is an additional module that consists of a camera and allows your 3D scanner EinScan Pro or EinScan Pro+ to perform colour scans. The external camera attaches to the scanner and is connected to a cable to capture the colour of the scanned object. The colour pack gives the EinScan Pro scanner the ability to scan different textures and colours in a single scan.</p> <p>By combining the colour pack with the EinScan Pro industrial pack scanner, you get a complete scanner that allows you to print objects, works of art, faces or even parts for the industry with high precision and colour detail.</p>
<p>EinScan-Pro HD Prime Pack EinScan-Pro Plus HD Prime Pack</p>	<p>The Prime Pack accelerates the scan speed in Handheld HD Scan Mode and captures more details of the scanned objects. It's ideal for cultural heritage preservation, archiving, restoration, etc.</p>
