

25-Jan-2019

PCN #:P-19-016861

Subject:IDC- DC input and IDCM- Slim line DC input Solid state relays

Description of Change: 1.Extra nut and washer are added on the screw. 2.Threads on the screw are extended through the length. 3.Values of nominal input impedance of all series are changed to current regulator.

Reason: 1.The mentioned changes are not notified in the last PCN IDC (E-18-000278) and IDCM(E-18-000125)but they are implemented. 2.There is only a form change, no function change.

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
