

50ML MANUAL CARTRIDGE DISPENSERS

Our manual dispenser features a versatile, compact, durable, and well-balanced design providing trouble-free, point-of-use dispensing. Lightweight design accepts all ratios.

Features and Benefits

- Lower Cost: more consistent controlled flow, less waste
- Better Ergonomics: lighter and more compact
- More Versatile: accepts all ratios (additional plungers required)
- Durable: designed to eliminate cartridge cracking / jamming

KRYLEX 50ml / 50g SIDE BY SIDE SYRINGE - MANUAL DISPENSER

The KRYLEX 200994MR50 manual dispenser is a compact trigger action dispenser for 50ml / 50g side by side cartridges. Manufactured to fit our 50ml / 50g cartridges, the cartridge is held securely in the correct position for trouble free dispensing. Supplied with a 4:1 and 1:1 ratio ratchet plunger to fit both 1:1 and 4:1 Krylex 2K systems.

Part #	Supplied Plungers	Replacement Plunger 1:1	Replacement Plunger 4:1	Dispensed Volume (Per Click)	Material	Pack size
200994MR50	1:1 & 4:1	7703040	7703045	1.5 - 2ml*	Nylon / PP / PE	1

* Dependent on mix ratio

50ML CAULKING GUN CONVERSION KIT

The Krylex Caulking Gun Conversion Kit accepts most multi-ratio 50mL Cartridge Systems (1:1, 2:1, 4:1, and 10:1) including competitive 50ml bayonet cartridges. A different plunger is required for each type

Features and Benefits

- Versatile: can be used with standard professional caulking guns
- Practical: great for DIY/Home repair, field installations and occasional
- Cost Effective: ideal for sampling your adhesives!
