- Addressable RGB LED strip

Card robot parts

Wires and sensors

## Box Dimensions

W 332 x L 299 x H 32mm

## Product Weight

0.5kg

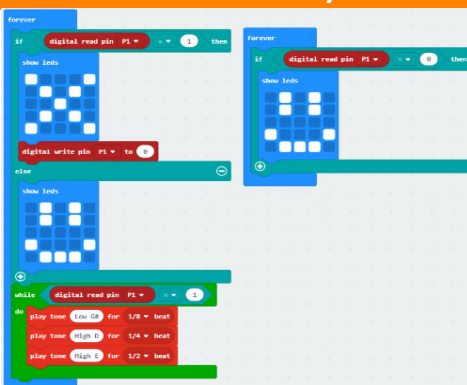

Instruction Manual

Stickers

## Build and code your own robot

Use a BBC micro:bit to bring the UFO to life. No complicated software needed - just write code on a web page using Block Editor. Simply connect the sensors included in the kit and your robot comes alive. Create anything from a motion detecting security robot to a temperature or light sensing science experiment - the possibilities are endless!
