

Product Change Notification

Current Date: 04-Mar-2019

TE Connectivity

Product Change Notification: P-18-015882

PCN Date: 29-MAY-18

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
 Assembly, Socket, AMPSEAL 16

Description of Changes
 In an effort to raise our customer service and improve delivery of quality product to customer requested dates, TE Connectivity will be adding a second forming die to produce components required for socket assemblies. This die is a duplicate of the existing tool and will increase output as it will allow two forming dies to be ran simultaneously. There will be no changes to the quality of the product manufactured with the additional forming die as there are no changes to the product design or manufacturing process. An internal release based on TE Connectivity specifications and standards will be executed prior to any parts being delivered to verify product performance.

Reason for Changes:
 Product improvement. The addition of a second forming die will better allow TE Connectivity to meet current demands and serve future needs of customers.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	14-SEP-2018
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
