## 5120, 5123 IEC appliance filter now with V-Lock cord retention

### Product

The IEC appliance filter series 5120 and 5123 are now as standard equipped with the V-Lock cord retention feature. With the V-Lock system, the power connector is equipped with a latch that interlocks with a special notch in the inlet and thus reliably prevents the cord from being pulled out.

### Technical Information

Data sheets of types [5120 and 5123 \[1\]](#) have been updated. The new features are indicated accordingly. The changes on the products are documented in the Product Change Notifications (5120: PCN D10-006-329, December 2017, 5123: PCN D10-006-438 June 2018) and can be found on the web data sheets [\[1\]](#).
