Enterprise Level Power Distribution For Your Data Installs

Looking for high-performance power distribution for your heavily loaded systems?

The newly developed LMS Data 32A heavy-duty horizontal high-density PDU is ideal for high-loading device requirements including server, network and other industrial-type equipment functions such as broadcast and HVAC applications.

Combining a fully certified commando type 16A plug input combined with a compatible heavy load power flex means you can be assured this LMS Data PDU can work without problems, 24/7.

Furthermore, incorporated onto the horizontal form-factor are standardised, UK 3-pin plug sockets. Ideal for connection to ethernet switches, NAS devices, Servers and of course other active products with the added benefit of electrical surge protection.

Robust in design, with an integral neon illuminated rocker switch for assured functionality, the LMS Data PDU is designed to deliver maximum electrical power today and tomorrow.

specifications:

Horizontal, high-density Power Distribution Unit (PDU)

Heavy-load 32A Commando style 3-pin plug

Compatible, heavy-load power cable

6x standardised UK output power sockets

Robust, black aluminium design for industrial use

Neon on/off power switch for assured control

Maximum power rating - 4000W nominal

2.0 metre (approx.) power cordage
