XinaBox Datasheet PU01 - USB (Type A) Power Supply

Overview

This xCHIP is designed to supply power to connected xCHIPS directly from a USB port without the need of an extension cable. Voltage regulation from USB power provided by on-board AP2114 LDO, which features 1 A continuous current output, good output regulation accuracy and short circuit protection.

Product Highlights

- 1 A Continuous Output Current
- LED Power Indicator
- USB A connectivity without the need of a cable
- Fold-back Short Current Protection

Specifications

- Output Voltage Accuracy: ±1.5%
- Output Current: 1A
- Fold-back Short Current Protection: 50mA
- Low Quiescent Current: 60μA
- Low Output Noise: 30µV RMS
- OTSD Protection
- Operating Temperature Range: -40°C to 85°C
