Product Change Notification for Solder Paste Supplier Change for SM20 Series Product PCN# 5261

Littelfuse would like to notify you of a change relating to SAC305 solder paste supplier for SM20 Series products due to current supplier is unable to continue supplying the current solder paste. Therefore, we have qualified a new supplier.

After a complete qualification test, the qualification test result ensures that there are no any changes to current SM20 Series electrical and dimensional specification. Qualification test report and supplier information are available upon request.

All current SM20 Series will start to be manufactured using the SAC305 solder paste from new supplier starting from **April 16th, 2019**.

Please see attached the affected part number list:

Affected Part
Number List SM2

Let us know if you have any questions. Thanks.

Best Regards
