

EAN:	4013288206558	Size:	570x465x50 mm
Part number:	05136600001	Weight:	1540 g
Article number:	Adventskalender 2019	Country of origin:	CZ
		Customs tariff number:	82054000

- The iconic Wera Advent calendar celebrates its 10th birthday
- Contains professional tools for 20 different applications
- Includes two-component cross-handle with great leverage
- Including a compact, two-part Stubby bit holder, which makes it easy to work in confined spaces
- With corkscrew and bottle opener in an irresistible design

The 2019 Wera Advent calendar combines new products for true screwdriving fun with proven problem solving tools with professional quality. The new cross handle sits comfortably in the hand. Its two-component nature ensures a secure and firm grip. The cross-grip geometry enables a particularly high level of leverage. The integrated bit quick-change „Rapidaptor“ holder offers full flexibility in screwdriving uses and a lightning-fast, secure change of the required tool. Also new: the small Stubby bit holder, which can also be used in compact installation spaces. The integrated magnetic holder is also extremely small and gives the user the full choice of screwdriving bits. The included bits, sockets and socket adapters make the advent calendar a set that offers a wide variety of screwdriving solutions: 11 x 25 mm bits and 6 x 50 mm bits with special corrosion protection in the following profiles; flat-head, hexagon socket, TORX®, Phillips PH and PZ; 3 sockets with Take it easy tool finder and 1 socket adapter, so that the cross-handle and Stubby holders can also be used for sockets. Incredibly, the Wera Advent calendar celebrates its 10th birthday in 2019! On this occasion, this year's calendar includes two special extras: A Stubby bottle opener and a cross-handle corkscrew that form a duo that is not only high quality, but also real eye-catchers. All screwdriving tool contents can be stored and protected in the included textile box. This box has a non-woven zone on the outside and thanks to the Velcro strip, also included, is easily mounted on a wall or a workshop trolley. This allows compatibility with the tool transport system Wera 2go. Therefore, of course, this textile box is also compatible with the revolutionary Wera2go system.
