TCP Smart WiFi 3 metre smart tape light

6w colourful 16 million colours

Control your smart tape through TCP Smart app or via smart speaker Alexa and Google.

Even when your not at home, you can control your smart tape on/off with your phone using TCP Smart App. Set schedules for your smart bulb to light your home when your away or just to come on at dusk or turn off at sunrise. You can create a group for all of your smart tape and control them all with just one command.

Control your smart tape via your voice with Amazon Alexa, Google Assistant and IFTTT. Just give a voice command to turn on/off or dim/brighten your light, even switch your light to specified colour as you need. No hub required and easy to install.

Express yourself and make your space more creative with TCP Smart tape. Choose from 16 million colours to instantly change the look and atmosphere of your room. Control remotely with your smart device, create customized scenes and unleash your creativity.

TCP LED Smart tape lasts up to 25,000 hours or 25 years lifetime with normal use (with average daily usage of 3hrs per day).

TCP smart has a whole range of smart devices that all works under one simple app
