

Honeywell Announces Second Source Components to Select FSS Series Force Sensor Cover and Housing

In order to better enable us to provide continuous supply to our customers, Honeywell is adding a second source, effective immediately, for the cover and housing for select FSS Series parts.

All new parts have undergone extensive design validation testing. The form, fit, and electrical performance of the old and new sensors are the same, and customers should notice no difference.

ABOUT FSS SERIES FORCE SENSORS

The FSS Series Force Sensor provides force sensing performance with enhanced precision and reliability in a more compact, commercial-grade package at a cost-competitive price. The sensor features a proven sensing technology that uses a specialized piezoresistive, micromachined silicon sensing element. The low power, unamplified, uncompensated Wheatstone bridge circuit design provides inherently stable mV outputs over the force range. For additional product materials, please visit the [FSS Series Force Sensor](#) product page.

REGIONS AFFECTED

- Asia Pacific (APAC)
- Europe, Middle East, Africa (EMEA)
- Greater China (GrCH)
- Latin America (LATAM)
- North America (NA)

CONTACT INFORMATION

Honeywell is committed to providing you with a superior level of customer service. Please contact your Honeywell representative for additional information regarding this communication.

WARRANTY/REMEDY

Honeywell warrants goods of its manufacture as being free of defective materials and faulty workmanship during the applicable warranty period. Honeywell's standard product warranty applies unless agreed to otherwise by Honeywell in writing; please refer to your order acknowledgement or consult your local sales office for specific warranty details. If warranted goods are returned to Honeywell during the period of coverage, Honeywell will repair or replace, at its option, without charge those items that Honeywell, in its sole discretion, finds defective. **The foregoing is buyer's sole remedy and is in lieu of all other warranties, expressed or implied, including those of merchantability and fitness for a particular purpose. In no event shall Honeywell be liable for consequential, special, or indirect damages.**
