Please read these instructions carefully before use and retain for future reference.

IMPORTANT SAFETY INFORMATION

- When using electrical appliances basic safety precautions should always be followed.
- Check that the voltage indicated on the rating plate corresponds with that of the local network before connecting the appliance to the mains power supply.

Safety Information for Installation and Operation

- Avoid excessive force when installing.
- Always install on a surface that can support the weight of the fixture.

INSTALLATION

- Turn off or isolate the mains supply.
- Unclip and remove the surround trim piece.
- Remove the 6 screws securing the lens assembly and remove it.
- Offer the rear part of the unit to the wall in the desired position with reference to the supply wiring and mark the location of the 4 corner mounting holes.
- Drill the wall where marked taking care not to drill through hidden wiring or pipework and fit the wall plugs.
- Insert the supply wiring through the grommet and place the rear part of the unit against the wall and attach with the screws into the wall plugs.
- Connect the mains supply wiring to the terminal block as follows:

Connect the positive supply wire (brown or red) to the terminal marked L.

Connect the neutral supply wire (blue or black) to the terminal marked N.

- Replace the lens assembly and fit and tighten the 6 screws.
- Clip the surround trim onto the unit making sure it's fully engaged.
- Restore the mains supply.

CLEANING AND MAINTENANCE

- Clean only with a damp cloth with a little liquid detergent. Do not use any chemicals, abrasives or solvents that may damage the product.

SPECIFICATIONS

Voltage	220-240V~50Hz <input type="checkbox"/>
Colour Temp	4000K
