

Snooper SC5900 DVR

5" Navigation with Full HD Dash Camera

The new SC5900 DVR sat-nav from Snooper delivers the very best vehicle navigation. With a 5" crystal clear LCD display plus Built-in Full HD Dash Camera, the SC5900 DVR makes navigation stress free and easy.

KEY FEATURES

5" LCD Touch Screen - SC5900 DVR delivers clear and easy to read navigation instructions and can be used to view Dash Cam footage.

Built-In HD Dash Camera - SC5900 DVR has a built-in Full HD Dash Camera to constantly record the road ahead. This footage is stored on the 8GB Micro SD Card (included) and can be viewed on the unit. Ideal in case of an incident while out on the road. The loop recording feature overwrites the oldest footage whilst events are stored in a protected folder on the SD card.

New Improved Mapping - All Snooper sat-nav units incorporate the latest European street level mapping. Data supplied by Here® Technologies – widely acknowledged as the premium map data providers across Europe.

Bluetooth® Handsfree – If you have to receive a call whilst on the move you can do so safely with the SC5900 DVR's built-in Bluetooth® receiver.

Reverse Camera Input – With a Video Input the SC5900 DVR will accept most common reversing camera inputs. When reverse gear is selected the screen will automatically change to the camera view.

PRODUCT FEATURES

Truckmate, Ventura, Bus & Coach and Car dedicated models - Pick software with features tailored to the vehicle with options for Trucks, Caravans and Motorhomes, Bus, Coach and Car which deliver the best routes depending on vehicle type.

Free Lifetime Map Updates - Ensuring SC5900 DVR mapping is up-to-date, all new Snooper sat-navs have free lifetime map updates as standard. (See snooperneo.co.uk for full details.)

TMC Traffic Information System - With FREE premium TMC built-in, SC5900 DVR will notify drivers of upcoming traffic congestion or incidents, allowing them to navigate along alternative routes whilst minimising delays.

Environmental Settings - Input the Euro Standard of the vehicle plus other emission factors to avoid LEZ's and any potential charges. SC5900 DVR even accepts load codes to return incredibly bespoke routes.

Junction View - Full screen images of main motorway junctions are displayed in advance to help you navigate your vehicle safely through complicated motorway junctions.

Extensive Points Of Interest - SC5900 DVR has over one million points of interest built-in, or available to download with specific data for truck drivers, caravan & motorhome owners or bus & coach drivers.

Large Vehicle Lane Guidance - To ease the difficulties of driving larger vehicles, SC5900 DVR has a large vehicle lane guidance feature, which gives drivers advanced warnings to upcoming junctions and the optimum lane(s) for their vehicle.

Powered By Here™ Maps - Recognised as the market leading map data provider, all Snooper products are powered by Here™ Maps, plus additional large vehicle mapping attributes for Truckmate, Ventura and Bus & Coach versions.

Multi-Route Technology - Making a multi-stop journey can prove a challenge for any driver. But with SC5900 DVR's multi-route function, simply enter the postcodes of up to 16 locations and SC5900 DVR will provide the best route for your vehicle.

8GB MicroSD Card Included - All mapping provided by Snooper is incorporated on an 8GB Micro SD card. This allows any future European map updates to be downloaded hassle free.
