

Snooper S6900

7" Navigation with Active Magnetic Mount

The new S6900 sat-nav from Snooper delivers the very best in large vehicle navigation. The Active Magnetic Mount allows effortless removal from the windscreen for added security, whilst the clear 7" LCD touchscreen display and our unique routing algorithm make navigation stress free and easy.

KEY FEATURES

Active Magnetic Mount – New Active Magnetic Mount incorporates power (with TMC) and Reverse camera inputs meaning the S6900 can easily and quickly be installed and removed.

7" LCD Touch Screen - As one of the largest displays on the market, S6900 delivers clear and easy to read navigation instructions and is ideal for large vehicles where the windscreen may be further away from the driver.

Reverse Camera Input – With video input the S6900 will accept most common reversing camera connections. When reverse gear is selected the screen will automatically change to the camera view.

Bluetooth® Handsfree – If you have to take a call whilst on the move, you can do so safely with the S6900's built-in Bluetooth® receiver.

Latest Map Guarantee - All Snooper sat-nav units incorporate the latest European street level mapping with free updates*. (Data supplied by Here® Technologies – widely acknowledged as the premium map data providers across Europe.)

PRODUCT FEATURES

Truckmate, Ventura, and Bus & Coach dedicated models - Pick software with features tailored to the vehicle with options for Trucks, Caravans and Motorhomes and Bus & Coach. Delivering the best routes depending on vehicle classification.

Free Lifetime Map Updates* - Ensuring S6900 mapping is up-to-date, all new Snooper sat-navs have free lifetime map updates as standard. (See snooperneo.co.uk for full details.)

TMC Traffic Information System - With FREE premium TMC built-in, S6900 will notify drivers of upcoming traffic congestion or incidents, allowing them to navigate along alternative routes whilst minimising delays.

Environmental Settings - Input the Euro Standard of the vehicle plus other emission factors to avoid LEZ's and any potential charges. S6900 even accepts load codes to return incredibly bespoke routes.

Junction View - Full screen images of main motorway junctions are displayed in advance to help you navigate your vehicle safely through complicated motorway intersections.

Extensive Points Of Interest - S6900 has over one million points of interest built-in or available to download with specific data for truck drivers, caravan & motorhome owners or bus & coach drivers.

Large Vehicle Lane Guidance - To ease the difficulties of driving larger vehicles, S6900 has a large vehicle lane guidance feature, which gives drivers advanced warnings to upcoming junctions and the optimum lane for their vehicle.

Powered By Here™ Maps - Recognised as the market leading map data provider, all Snooper products are powered by Here™ Maps, plus additional large vehicle mapping for Truckmate, Ventura and Bus & Coach versions.

Multi-Route Technology - Making a multi-stop journey can prove a challenge for any driver. But with S6900's multi-route function, simply add in the postcodes of up to 16 locations and S6900 will provide the best route for your vehicle.

8GB MicroSD Card Included - All mapping provided by Snooper is incorporated on an 8GB Micro SD card. This allows any future European map updates to be downloaded hassle free.
