

<b>Title of Change:</b>	Assembly & Test site transfer of D2PAK products currently manufactured in ON Semiconductor Cebu Philippines facility to ON Semiconductor Suzhou, China facility.
<b>Proposed Changed Material First Ship Date:</b>	23 July 2020
<b>Current Material Last Order Date:</b>	31 March 2020 Orders received after the Current Material Last Order Date expiration are to be considered as orders for new changed material as described in this PCN. Orders for current (unchanged) material after this date will be per mutual agreement and current material inventory availability.
<b>Current Material Last Delivery Date:</b>	29 June 2020 The Current Material Last Delivery Date may be subject to change based on build and depletion of the current (unchanged) material inventory.
<b>Product Category:</b>	Active components – Discrete components
<b>Contact information:</b>	Contact your local ON Semiconductor Sales Office or <Peter.lee@onsemi.com>
<b>Samples:</b>	Contact your local ON Semiconductor Sales Office to place sample order or < <a href="mailto:PCN.samples@onsemi.com">PCN.samples@onsemi.com</a> > Sample requests are to be submitted no later than 45 days after publication of this change notification.
<b>Sample Availability Date:</b>	1 October 2019 Samples delivery timing will be subject to request date, sample quantity and special customer packing/label requirements.
<b>PPAP Availability Date:</b>	31 July 2019
<b>Additional Reliability Data:</b>	Contact your local ON Semiconductor Sales Office or <Frank.Tuan@onsemi.com>
<b>Type of Notification:</b>	This is a Final Product/Process Change Notification (FPCN) sent to customers. FPCNs are issued 12 months prior to implementation of the change or earlier upon customer approval. ON Semiconductor will consider this proposed change and it's conditions acceptable, unless an inquiry is made in writing within 45 days of delivery of this notice. To do so, contact <a href="mailto:PCN.Support@onsemi.com">PCN.Support@onsemi.com</a> .
<b>Change Category</b>	<b>Type of Change</b>
Process – Assembly	Change of mold compound Change of direct material supplier Move of all or part of assembly to a different location/site/subcontractor. (qualification of an additional manufacturing site)
Equipment	Production from a new equipment/tool which uses the same basic technology (replacement equipment or extension of existing equipment pool) without change of process.
Test Flow	Move of all or part of electrical wafer test and/or final test to a different location/site/subcontractor

Description and Purpose:		
	Before Change Description	After Change Description
LeadFrame Supplier	Hitachi(Single row)	TSP(Dual row)
Mold Compound	CEL8240HF10	KTMC5900GM
Assembly Site	ON Cebu, Philipines	ON Suzhou, China
Test Site	ON Cebu, Philipines	ON Suzhou, China
D2PAK package case outline is exactly same between Cebu & Suzhou.		
	From	To
Product marking change	ON Semiconductor format Only assembly plant code change : D	ON Semiconductor format Only assembly plant code change : 1
For marking, There is no change on the device marking for Suzhou. However Suzhou will use the different Date code which is ON Format. Equipment in receiving site may different with sending site, however all equipments are existing and qualified in mass production.		
<b>Reason / Motivation for Change:</b>	It is a Part of the integration strategy. - The motivation of change is to have better capacity support mass production - Late release from customer has potential supply issue.	
<b>Anticipated impact on fit, form, function, reliability, product safety or manufacturability</b>	The device has been qualified and validated based on the same Product Specification. The device has successfully passed the qualification tests. Potential impacts can be identified, but due to testing performed by ON Semiconductor in relation to the PCN, associated risks are verified and excluded.  No anticipated impacts.	
<b>Sites Affected:</b>	ON Semiconductor Sites: ON Suzhou, China ON Cebu, Philipines	External Foundry/Subcon Sites: None
<b>Marking of Parts/ Traceability of Change:</b>	Customer may receive the parts from ON Semiconductor Suzhou, China from month of June 2020 onwards once FPCN expire. Parts from ON Semiconductor Suzhou, China can be identified through product marking which follow ON Semiconductor marking format.
