

Fume Extraction Solution

Providing clean air in your workplace

Fume Extraction solution protect your health

+ SEPARATE FILTERS LESS WEAR

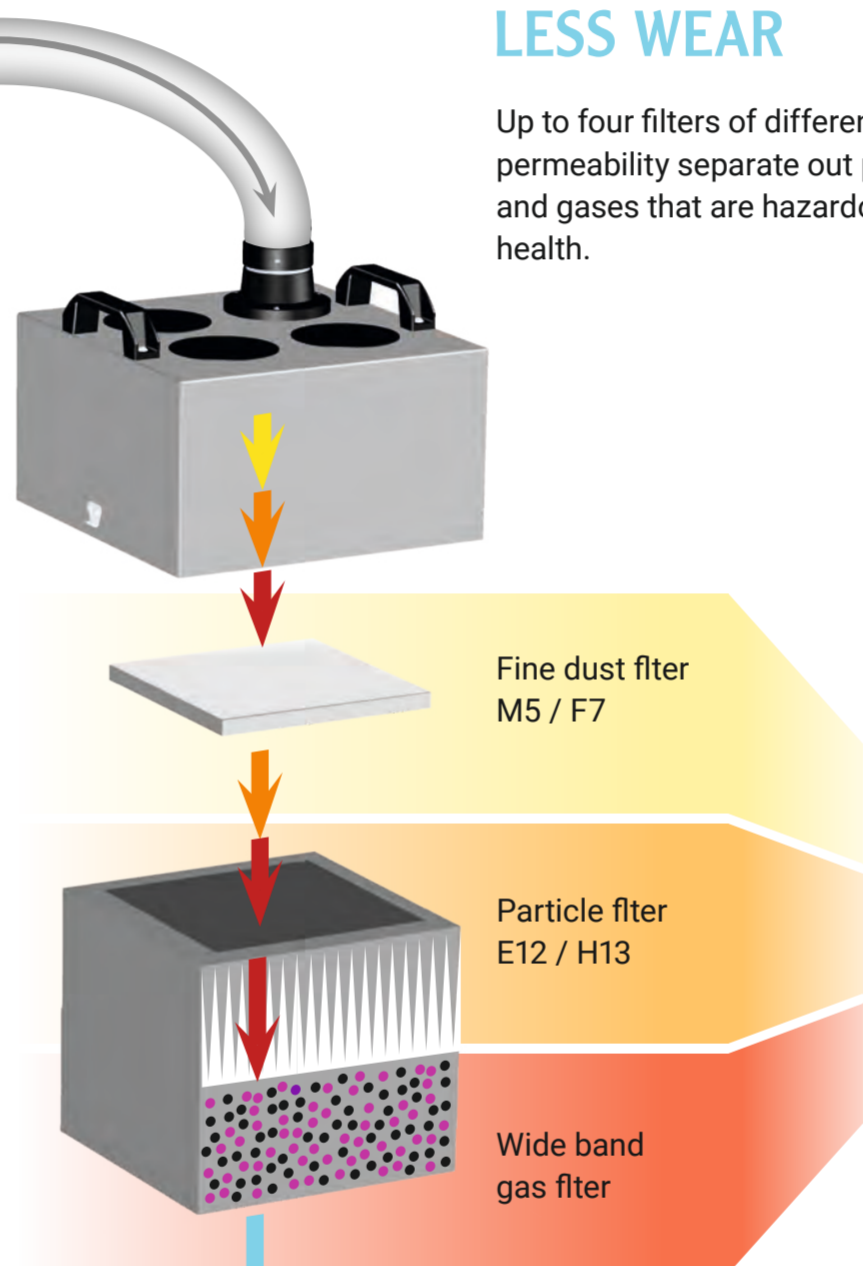

Up to four filters of different permeability separate out particles and gases that are hazardous to health.

Filter classification:	Recommended application
EN 1822:2009 M5	For standard applications
F7	For applications with high flux or dust content
E12 / H13	For applications with high flux or dust content
In accordance with EN 1822:2009 Gas	For applications with fumes from adhesives and solvents

+ PROTECTS THE HEALTH

Why fume extraction? See the video on www.youtube.com/wellersoldering

- Fibers, pollen 10 µm
- Bacteria, pigments 5 µm
- Smog
- Asbestos dust > 1 µm
- Viruses > 0.5 µm
- Gas

i FINE PARTICLES – A HEALTH HAZARD!

End product – clean air – is re-circulated into the workplace.

+ SAVES ENERGY AND REDUCES ENERGY COSTS
