G6S Low signal Relays – Product Code Change

In an effort to enhance our production process, Omron will cease production of the G6S low signal relay in Japan. Demand after January 31, 2020, will be supplied by our facility in Shenzhen, China, which also produces this relay. This change will not alter the technical specifications or external dimensions of the relay. The models to be affected include, but are not limited to the models listed below; should you have any additional questions, however, please communicate with the Relay Product Manager.
