## Listen Only Stereo Headset

(Model 10S/DC; P/N 12416G-18)

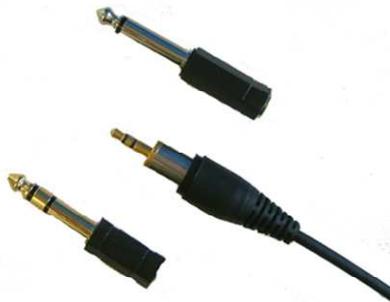

Entertainment, Aviation "Back Seat" Headset

**Product Bulletin**

David Clark Company's model 10S/DC is a listen-only, noise-attenuating, stereo headset. Made with all the care and dependability of our Aviation Headsets. Listen to personal media devices, such as CD, DVD, MP3 and most computer sound cards, while having the option of using the included 1/4" stereo or mono plug adapters... all while being protected from ambient noise. The headset will also provide a portable refuge from noisy environments,...such as excess street or dorm noise or airplanes.

### **NRR 23dB**

*Note: This item is not "TSO'd".*

Included adapters enhance versatility

## **FEATURES**

- Stunning stereo output
- Newest Undercut, Comfort Gel Ear Seals
- Super-Soft, Double-Foam Headpad
- Dual volume controls
- Durable, 6-foot extended coil cord
- Terminated with commonly-used 3.5mm stereo plug
- Both 1/4-inch plug adapters (mono & stereo) included
- Earphone elements are hi-fidelity, dynamic with a range of 10-20,000 Hz.
