

Daylight™ Tubes & Bulbs

One of the most important features that makes our lamps truly unique is our Daylight™ bulbs. **Nothing shines up your work like a Daylight™ light!**

Daylight™ bulbs guarantee perfect colour rendering, reduce eye strain and glare, help to see details and small print more easily and are low heat and energy saving. You will read or work for hours and your eyes will still feel fresh! **Help your eyes and the environment, use Daylight™ bulbs!**

Twist Portable Lamp D/E33707

NEW

20 years of experience!

Millions of people worldwide have already experienced the Daylight™ difference. Since the company was founded 20 years ago, our lights have enabled them to work better, to enjoy their hobbies more, or to read in greater comfort.

Over 4,000 trade partners worldwide are already benefiting from selling Daylight™ to customers as varied as enthusiastic crafters and artists, beauty professionals, visually impaired people and readers.

THE RIGHT LAMP FOR THE RIGHT CUSTOMER

All Daylight™ lamps are developed and designed with the customer in mind. They come with built-in flexibility, durability and mobility, so you can rely on Daylight™ lamps to do the job, whenever and wherever you need them. Daylight™ lamps combine craftsmanship, performance, and quality with unbeatable value for the money.

DESIGNED TO LAST

The unique Daylight™ 'Double Inspection System' ensures that all our lamps are individually inspected and tested at least twice before they reach your customers making it the best choice for your specific lighting needs for factories, laboratories, offices and other professional applications.

6500 DAYLIGHT TECHNOLOGY™

Daylight™ bulbs and tubes are full spectrum and reduce eye-strain so they are the most comfortable light for working and reading. The light offers true colour matching and helps artists and crafters mix and match colours. Daylight™ lights are simply the best source of light at any time of the day.

ENVIRONMENTALLY FRIENDLY

Daylight™ lamps are environmentally friendly too, being supplied with energy saving bulbs as standard. These bulbs use 80% less energy and last up to 10 times longer than incandescent bulbs. See page 23 for further information.

SELLING TO AN AGEING POPULATION

The ageing population is a great sales opportunity for Daylight™ lamps. At the age of 60 people need 3 times more light than at 20. Better lighting means better vision, a good reason to promote Daylight™.

NATURALIGHT™, MORE CHOICE FOR YOUR CUSTOMERS

Naturalight™ targets a growing segment of the market with people looking for lower cost natural lighting alternatives. Naturalight™ is a new affordable mid-range line with magnifying and task lamps, all with soft Naturalight™ light, ideal for hobbies, reading and all kind of inspection work. This green brand has been designed to be sold alongside the Daylight™ range, as they aim for different market segments. See page 18-19 for more information.

INNOVATIONS IN TASK LIGHTING

The Daylight™ design team never stops creating and we are always looking at new innovative product ideas or ways to improve our products. So let us know how Daylight™ can help you generate more sales with your lighting category.

Go to our website www.daylightcompany.com for more details or contact your Daylight™ sales representative.
