

PCN: V19-013-476103-OA

Product Change Notice

Issue Date: 1st Nov'19

Change Type: Set screw with Loctite Coating for HEDR-5420-ES214 encoder.

Parts Affected:

Part Number	Product Description
HEDR-5420-ES214	Mini En,Set Scr,200CPR,Ears,5mm

Description and Extent of Change:

Implementation of set screw with Loctite coating to secure in the hub thread of the reflective encoder HEDR-5420-ES214. The Loctite coating at the set screw validated and able to withhold set screw within hub thread.

Please refer to the set screw with Loctite coating shared below:

Photo#1- Current set screw

Photo#2- Set screw with Loctite coating

Reasons for Change:

This is a counter measure for the issue highlighted by customer on missing or drop off set screw. This solution tends to up-hold the setscrew within the hub thread for easy installation and application.

Effect of Change on Fit, Form, Function, Quality, or Reliability:

There is no form, fit, function or product reliability change.

Effective Date of Change: By 1st week of Nov' 2019

These changes have been reviewed and approved by Broadcom engineers and managers per Broadcom procedure: Change Control and Customer Notification.

Please contact your Broadcom field sales engineer or Contact Center (<http://www.broadcom.com/contact/>) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
