Technology

Enabling the Next Generation of Bluetooth(™) Connectivity

Are you looking to upgrade your existing computer to the latest *Smart Ready* Bluetooth(™) version 5 technology?

Stylish and compact in design, the new **BT-USB-V-G** is the next-generation of Bluetooth(™) nano adapter allowing users to take advantage of the exciting development of Bluetooth(™) wireless for both professional and personal users alike.

Using the very latest Bluetooth(™) version 5 chipset means you have even greater low energy (LE) support for your mobile devices while still maintaining sustained data rates over longer distances. Ideal for IoT (Internet of Things) devices with greater connection reliability and location-relevant navigation.

Perfect for Windows(™) and Mac(™) OS X systems and an ideal partner for peripheral connection and fast and secure data transfers.

specifications:

Bluetooth(™) Version 5.0 Compliant

Up to 3Mbps Wireless Range - 10 to 20m Range *

Low-power mode for mobile energy conservation

Supports Networking, Dial-up, Fax and Headset

Faster sustained data burst rates - LE range performance

Unique, ultra-compact Nano USB form factor

Ideal as a permanent USB Bluetooth(™) option

WLAN coexistence interface

Plug n' Play for Windows(™) 98/2K/XP/7/8/10 & Mac OS X

* Dependant on environmental factors

Packaging Dimensions

11cm (w) x 12.5cm (h) x 1.5cm (d)
