

## Premium Cat.5e STP Patch Cables

Click on image  
▼ to enlarge

The premium range of Cat.5e shielded patch leads are manufactured on high quality UK made stranded cable and terminated with AMP shielded plugs. We stock the cables in a limited number of lengths, however, specialist custom made requirements can be manufactured upon request.

### Features:

- High quality components used in manufacture:
- Connectors: AMP 50 micron shielded RJ45 plugs
- Cable: DRAKA BASEC approved shielded stranded cable
- Available in beige & fully tested
- Certified to 100 MHz - suitable for data, voice & ISDN systems
- Custom made lengths supplied on quick lead times
