

**T50SDP6****157-01104**

This one piece cable tie with fir tree fixing offers a simple and easy to use method of bundling and fixing cables, pipes and hoses. The design of the fir tree ensures a positive and secure fixing into panels from 0.8mm to 7.0mm deep or threaded blind holes. The 'disc' on the top of the fir tree covers the hole and minimises the ingress of dust, dirt and water. Type REL are releasable and reusable and are ideal for the removal or addition of cables after the initial installation is completed.

Primarily designed for fixing cable harnesses in the automotive industry their simplicity and ease of use has resulted in these parts being used in many other industries, for example: aviation, switch-gear manufacture and white goods.

Ideal for use in deep panels and threaded, blind holes.

**Base Data****Colour**

Natural (NA)

**Package Content**

250

**Quantity per**

Bag

**Recommended Application Tool**

MK20, MK3PNSP2, MK3SP, MK7P, MK7

**Material and Specifications****Flammability**

UL94 V2

**Material**

Polyamide 6.6 (PA66)

**Material Shortcut**

PA66

**Operating Temperature (Metric)**

-40 °C to +85 °C Continuous, (+105 °C for 500 h)

**ROHS Conformity**

TRUE
