# Enclosure Starter Kit, IOT, IP67

multicomp PRO

Features

- Industrial IP67 Design
- Die-Cast aluminium alloy (AI-Si-Mg)
- Robust, anti corrosive design
- Surtec® 650 under paint surface treatment
- Complete system protection against water ingress IP67 or NEMA6
- Operating temperature: -40°C to +120°C
- Up to 4 Data/Power/Monitoring ports (In this build 1 RJ45 Ethernet port + 3 × LED + system reset)
- Integrated plastic Gore® vent designed to eliminate humidity in the enclosure - protecting electronics in the enclosure from corrosion creating air flow and preventing hazardous gases from building up inside the enclosure
- Integrated plastic Gore® vent also equalises pressure inside/outside the enclosure - reducing stress on the enclosure
- Dimensions: 250mm × 220mm × 70mm

Kit contents:

1. GLB enclosure
2. Metal top lid
3. Gore® plastic vent
4. RJ45 module
5. IP67 cable gland
6. 3 LED/RESET module
7. Transparent dust cap
8. Black dust cap (2)
9. Electronics adaptor plate
10. Wall mount bracket

Design Space Available
