

Broad Range Non-Contact Voltage Tester

Klein's Broad-Range High-Voltage Non-Contact Tester detects voltage up to 230kV AC in overhead conductors. The tester indicates the presence of voltage through multiple sensitivity levels with both audible and visual signals. Attach the tester directly to a hot stick or use the universal adapter to attach it to your shotgun.

Specifications

Type:	Broad-Range	Application:	Detects Voltage Up to 230kV AC in Overhead Conductors
Special Features:	Indicates The Presence of Voltage With Both Audible and Visual Signals	Overall Length:	10.39" (26.4 cm)
Voltage:	up to 230kV AC	Included:	Carrying Case and Universal/Shotgun Adapter
Weight:	1.40 lb (0.60 kg)
