Regarding: ALLEGRO THAILAND TEST TRANSFER TO ALLEGRO PHILIPPINES

Dear Valued Customer,

This letter is to inform you that, in conjunction with our Board, Allegro MicroSystems' management has decided to transition all equipment and activity out of our Allegro MicroSystems (Thailand) Co., Ltd (AMTC) facility to consolidate manufacturing at the Allegro MicroSystems Philippines, Inc. (AMPI) location.

There were multiple factors that influenced this decision, including market conditions and activity levels. In addition to these factors, our AMPI location is capable of supporting more than double its current volume. As a result of this decision, we will be transferring test, pack, and ship operations for our Power IC product line to AMPI.

Transitioning FROM:

Allegro MicroSystems (Thailand) Co., Ltd
198 Moo 7, Nong Pla Mo, Nong Khae
Saraburi Thailand 18140

Transitioning TO:

Allegro MicroSystems Philippines, Inc.
4756 Sampaguita Street, Marimar Village
Barangay Sun Valley,
Parañaque City 1700
Philippines

Our AMPI location is a long-established, TS16949 certified test facility where Allegro has been testing our broad range of automotive grade, robust sensor and power IC products for decades. All existing test equipment will transfer from the AMTC facility to the AMPI facility, ensuring no change to how our products are tested today. Each product will be run on the same make and model of test equipment as they are today.

Allegro will be transitioning AMTC's test, pack, and ship operations to our AMPI facility throughout calendar year 2020. Please refer to the appendix for a listing of Power IC products associated with this transition.

Please note at Allegro's discretion, the Product Change Notification format may be utilized where Allegro deems a more comprehensive notification is warranted.

Appendix: Allegro Catalog Part Numbers – Transfer to Allegro Philippines Test
