PRODUCT CHANGE ANNOUNCEMENT

Marathon Special Products is announcing a change in the design of the molding for our M and CC Fuse Holders. This product change stems from a functional simplification with the a new fuse clip making insertions for the fuse more effortless.

General Changes & Rationale:

1. New Fuse Clip assembly (On CC versions only)
 - o The new fuse clip allows MSP to eliminate several components to simplify manufacturing.
 - o This removes an additional mold and spring used to assure the proper fuse was being used. These features are now built into the new clip itself.
 - o MSP must implement this change in order to remain competitive with a sustainable design.
2. Profile changes (on both Midget and CC versions)
 - o Minor profile changes, such as larger radii, thinner walls or modified engravings are also noticeable, but have no negative affect on the performance.

This will be a running change with no variance to the part numbers or ratings.

Products will be converted to the new design **around** June 2020, but will vary depending on when production tooling is in place, when inventory is depleted and the first time a particular version is manufactured.

All products below are affected by this change. All Job numbers / customer specific models that begin with the part numbers below will also be affected. (EX: 6CC30A3B IH / 6CC30A3SPQ 7)

CC Versions Affected:

6CC30A1B	6CC30A1SQ	6CC30A1SPQ	6CC30A1BCU
6CC30A2B	6CC30A2SQ	6CC30A2SPQ	6CC30A2BCU
6CC30A3B	6CC30A3SQ	6CC30A3SPQ	6CC30A3BCU

Midget Versions Affected:

6M30A1B	6M30A1SQ	6M30A1SPQ	6M30A1BCU
6M30A2B	6M30A2SQ	6M30A2SPQ	6M30A2BCU
6M30A3B	6M30A3SQ	6M30A3SPQ	6M30A3BCU

WCC Combination Affected:

6CCM30A3SQ

Please feel free to email or call with any questions regarding this product modification.
