

Battery-Operated Bolt Cutter, Steel, 4 Ah

Klein's battery-operated bolt cutter is engineered to make linemen's work more efficient by reducing the time and effort needed on the job. Cuts 3/8-Inch EHS and 3/8-Inch Grade 8 bolts. 7-ton hydraulic force crimps a larger capacity faster than similar models on the market. Compatible with industry standard W-style dies. Powered by DeWALT 20V lithium-ion batteries. Includes cutting jaw, two 4 Ah batteries, charger and bag.

Specifications

Type:	Battery Operated	Application:	Bolt/Steel Cutting
Special Features:	Powered by DeWALT 20V Lithium-ion Batteries (4 Ah)	Maximum Cable Capacity (Guy Strand):	7/16" EHS
Bolt Maximum Capacity:	3/8" Grade 8	Overall Length:	26" (66 cm)
Overall Height:	12" (30.5 cm)	Overall Width:	6" (15.2 cm)
Material:	ABS, PA6, GF, TPE	Batteries:	Lithium-ion
Battery Life:	4 Ah	Voltage:	20V
Included:	Cutting Jaw, (2) 4 Ah Batteries, Charger and Bag	Weight:	17.35 lb (7.9 kg)
