

Slim Lamp

This modern, sleek aluminium alloy Slim Lamp is designed with flexibility in mind.

The strong flexible aluminium alloy neck ensures that daylight is always shining on your project. The long slim head of the lamp rotates completely and has bright LEDs all the way along it.

A bench clamp is provided, allowing the user to clamp the lamp to the edge of a desk or any flat surface, without it taking up any unnecessary space on the work area.

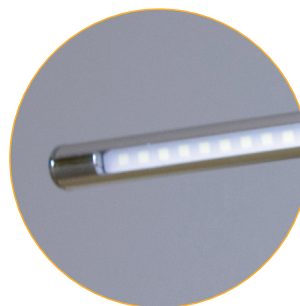

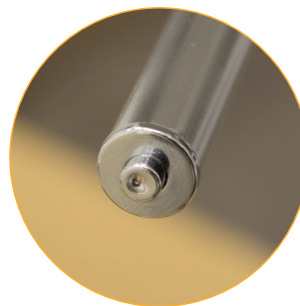

The Slim Lamp can be used on a desk over your workstation, for sewing and craft activities or by Beauticians and Nail Technicians. Its also a great reading lamp.

FEATURES

- The aluminium alloy neck and head provide a modern and sleek look.
- The flexible neck can be bent in multiple directions so light can be positioned exactly where needed.
- Powerful LED's from the long and fully rotatable head ensure there is a wide spread of light.
- Powered by USB.
