i.MX6D/Q Product Final Test Site Expansion from NXP-ATTJ to ASECL

Description

NXP Semiconductors announces the Final Test site expansion for the i.MX6D/Q Product associated with this notification, from the current NXP ATTJ, Tianjin, China Final Test site to the ASE, Chung-Li, Taiwan Final Test site.

Final Test site expansion was successfully qualified adhering to NXP specifications.

Please see the attached file(s) for additional details.

Reason

Qualification of ASE, Chung-Li, Taiwan is required for manufacturing flexibility and customer supply assurance.

ASECL is already qualified for final test of Auto products.

ASECL is qualified as an alternative test site for i.MX6D/Q, and gives NXP another final test option for this product.

Identification of Affected Products

Product identification does not change

Anticipated Impact on Form, Fit, Function, Reliability or Quality

No impact on form, fit, function, reliability or quality.

Disposition of Old Products

NXP will reserve the right to ship from any location based on market demand situation.
