

Knife

Self Retractable Safety Knife

Two position self-retracting mechanism - for extra safe handling - reduce accidents. Full blade extension ideal for general cutting tasks. Box cutter setting ideal when minimal blade penetration is needed.

Made from lightweight but durable aluminium. Thicker walls in high use areas. Spring return safety shuttle returns the blade at the end of a cutting action to minimise the risk. Patented bail screw design which does not require additional tools. Captive screw. Magnetic blade retainer for safer blade changes. Non-slip ergonomic handle design for comfort during prolonged use. Stores up to five blades. Includes one shatterproof Irwin® Bi-metal Blue Safety blade.
