### Description

These L-com RF Coaxial Adapters are used to interface between BNC Twinax to BNC Twinax with coaxial connections. The LCAD30019 is a tee adapter with a jack to jack configuration. This Coaxial Adapter, 78 Ohm BNC Twinax Tee Jack / Jack / Jack is made from brass and has a nickel finish. The Twin-Ax BNC has two contacts inside the connector housing. The coupling mechanism is a bayonet design, the same as a standard BNC. Twin-ax BNC connections are commonly used with Twin-ax cable used in differential pair applications where separate conductors are used to carry the signal of interest. BNC Twinax adapters are often required to adapt between connector genders. L-com's RF Coaxial and Triaxial adapters are in stock and ship same day.
