

Product Details:

### **VELCRO® Brand Extra Thin Fastener**

VELCRO® Brand Extra Thin Fastener is a very thin extruded High Technology Hook with Loop Closure, allowing devices to be easily removed and repositioned in areas where a low profile is required, and which eases the process of installing and upgrading any indoor item or product.

Adhesive designed for a wide number of substrates such as aluminum, stainless steel, glass, plywood, polyester, polyethylene and polypropylene. Adhesive is not suitable for Vinyl-PVC.

From general use to industrial applications, our Professional Series products are a smart alternative to traditional fasteners and a must have for any contractor and installer.

Features and Benefits:

- Product width presentations of 20 and 50mm and lengths of 5 and 25 meters
- Colours: Black, white
- Base material: Polypropylene & Polyamide
- Very low hook and loop profile for indoor use
- Low adhesive temperature ranges: -15°C to +60°C
- Easy and fast (dis)mounting
- Extremely useful for areas where low profile connection is needed
- Useful during maintenance tasks, flexible to support moves, adds, or changes
- Increased performance in combination with mechanical systems (nailing, screwing, stapling)
- Easy touch fastening & light weight providing time & labor savings
- For applications where medium cycling is required
- Increased creativity
- Labor savings: greater productivity, repositionable & easy to remove, safety & no weather restrictions
- Environmental benefits: Reduces air pollution by chemical components or solvents, less waste / residue and recyclable
