#### **AMENDMENT RECORD**

MARK	DATE	DESCRIPTION	ITEM	PAGE	APPROVED
1	2017.06	INITIAL ISSUED	ALL	ALL	Style.

- The following icons are absolutely designed by FORDATA independently in 2007-SEP. They are unique in the LCD industry and are used
  for marking out FORDATA products' characteristics quickly and simply without any special meaning.
  FORDATA reserves the composing right and copyright. No one else is allowed to adopt these icons without FORDATA's approval.
- 2. The ISO9001 logo used in this document is authorized by SGS (www.sgs.com). FORDATA has already successfully passed the strict and professional ISO9001:2000 Quality Management System Certification and got the certificate. (No.: CN07/00404)
- 3. The technologies/techniques/crafts which denoted by the following icons are not exclusively owned by FORDATA but also shared by FORDATA's LCD strategic cooperators, however all these technologies/techniques/crafts have been finally confirmed by FORDATA's professional engineers and QC department.
- 4. As the difference in test standard and test conditions, also FORDATA's insufficient familiarity with the actual LCD using environment, all the referred information in this DATASHEET (including the icons) only have two functions:
  - 4.1: providing quick reference when you are judging whether the product meets your requirements or not.
  - 4.2: listing out the tolerance

**FORDATA declares seriously**: you should first test the corresponding sample(s) before signing the formal FORDATA SAMPLE APPROVAL document rather than consider this DATASHEET as the standard for judging whether the LCD meets your requirements or not . Once you place bulk order(s) to FORDATA without testing samples. FORDATA will disclaim all responsibility if the mass-production is proved not to meet with your requirements.

5. The sequence of the icons is random and doesn't indicate the importance grade.

6. Icons explanation

2000 Version

2006 Version

classic mono LCDs

2012 Version

Classic LCDs & LEDS

FORDATA is an integrated manufacturer of flat panel display (FPD). All above listed icons and words compses FORDATA's logo.

From 2000, FORDATA has supplied LCD module

From 2006, FORDATA has supplied TN, HTN, STN, FSTN monochrome LCD panel

From 2012, FORDATA has supplied all kinds of LED backlight.

#### **FAST RESPONSE TIME**

This icon on the cover indicates the product is with high response speed; Otherwise not.

#### **HIGH CONTRAST**

This icon on the cover indicates the product is with high contrast; Otherwise not.

#### WIDE VIEWING SCOPE

This icon on the cover indicates the product is with wide viewing scope; Otherwise not.

#### **RoHS COMPLIANCE**

This icon on the cover indicates the product meets ROHS requirements; Otherwise not.

#### **3TIMEs 100% QC EXAMINATION**

This icon on the cover indicates the product has passed FORDATA's thrice 100% QC. Otherwise not.

#### VIcm = 3.0V

This icon on the cover indicates the product can work at 3.0V exactly; otherwise not.

#### **PROTECTION CIRCUIT**

This icon on the cover indicates the product is with protection circuit; Otherwise not.

#### LONG LIFE VERSION

This icon on the cover indicates the product is long life version (over 9K hours guaranteed); Otherwise not

#### Anti UV VERSION

This icon on the cover indicates the product is against UV line. Otherwise not.

#### **EASY OPERATION TEMPERATURE**

This icon on the cover indicates the product can have good contrast on one driving voltage in indicated operation temperature range .

#### TWICE SELECTION OF LED MATERIALS

This icon on the cover indicates the LED has passed FORDATA's twice strict selection which promises the product's identical color and brightness; Otherwise not.

#### N SERIES TECHNOLOGY (2008 developed)

FORDATA adopts new structure, new craft, new technology and new materials inside both LCD module and LCD panel to improve the "RainBow"

	1	2	3	4	5	6			8			11	12	_	13	14	15	16

	LED LIFE TIME ▲3	_	25°C If = 15mA	9K	_	_	Hours

▲2 请注意,驱动背光考虑的是恒流而不是恒压.所以,这个数值非常重要!

YOUR ATTENTION: It is constant current (not constant voltage) that should be applied when driving LED backlight. Therefore, this data is very important!

\* 当工作温度高于25°C的, lfm, lfp和Pd必须降低; 电流降低率是-0.36\*1mA/°C(直流驱动), 或-0.86\*1mA/ ℃(脉冲驱动), 功率降低率是-75\*1mW/℃.

产品工作电流不能大于对应的工作条件温度Ifm或lfpr的 60%. For operation above 25°C, The Ifm Ifp & Pd must be derated, the Curent derating is -0.36\*1mA/°C for DC drive and -0.86\*1 mA/°C for Pulse drive, the power dissipation is -75\*1 mW/°C The product working current must not be more than 60% of the Ifm ir Ifp according to the working temperature.

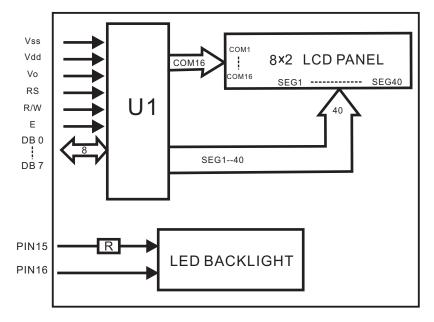

▲3 如果您需要让背光连续不间断工作超过8小时,那么不建议您采用这款背光. 福德电子可以提供您长寿背光的解决方案. If you want to drive the LED Backlight uninterruptedly over 8hours, this version is not suggested. Please consult long life design solution from FORDATA or FORDATA's authourized distributors.

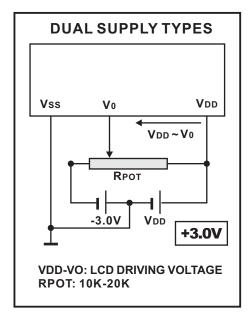

#### **PIN ASSIGNMENT**

PIN	SYMBOL	DESCRIPTION	REMARKS
1	Vss	GND	
2	Vdd	Power supply for LCM	3.0V
3	V0	Contrast Adjust	
4	RS	Register Select Signal	
5	R/W	Data Read / Write	
6	E	Enable Signal	
7	DB0	Data bus line	
8	DB1	Data bus line	
9	DB2	Data bus line	
10	DB3	Data bus line	
11	DB4	Data bus line	
12	DB5	Data bus line	
13	DB6	Data bus line	
14	DB7	Data bus line	
15	LED+	Power supply for BKL	3.0V
16	LED-	Power supply for BKL

#### **PACKING DECLARATION**

- This packaging information is for reference only. The actual information is subject to the actual packaging. Especially for packaging of LCL, tolerances may exist.
- FORDATA will not be responsible for quality problems caused by unnormal transportation conditions (including but not limited to climate factors or human factors, such as improper handling).
