

# IR Legacy to IFX Barcode Product Label (BPL) standardization Information Package INF 087/20

August 2020

- restricted -

## Background and objective

---

### Background:

- › All IR legacy BPL shall be standardized to the IFX standard format

### Objective:

- › Harmonize and standardize the Barcode Product Label (BPL) across all external production partners (Subcon)

# Impact of change and implementation

---

## Impact of change:

- › No impact to customer as all information in the current IR Legacy BPL will also be available in the standard IFX BPL.
- › No impact on product form, fit, function and electrical performance, as well as on marking and final packing configuration

## Implementation phases and duration:

- › Implementation will be by external production partners (Subcon).
- › This change is expected to have multiple phases and will last over the next 2 years.
- › During this duration, there will be situation that customers will receive for a duration of time, both current and new labels, as all existing inventory cannot be relabeled.

# Comparison in existing and new BPL

## Existing

## New
