

# PowerCat Office Block™ Category 5E

#### **Features and Benefits**

Molex's OFFICE BLOCK was designed in accordance with TSB75 and is the ideal solution for open office cabling. This attractive and compact 1 port RJ45 unit facilitates a simple, organised installation for areas where space is limited.

A protected labelling facility accepts 6mm labelling tapes and the interior of the unique hinged cover of the unit, provides a write-on surface for port identification. The product is provided with snap-on shutters recommended for connector protection.

The block can be fitted using screws (not provided). Cable is installed from the rear of the block, using the knockouts provided and is retained by the unique strain relief feature which obviates the requirement for cable ties.

Dual colour coding of the IDC blocks provides the option of 568A or 568B wiring. Designed to support high speed data transmission systems, the Cat 5E RJSE connector is PowerSum compliant.

- Compact, attractive and versatile 1 port surface mount block
- Cable entry from rear knockouts
- Labelling facility
- Mounts with screws
- Shuttered
- PowerSum compliant
- Suitable for high speed data transmission
- Cover optionally removable to facilitate installation

## **Technical Information**

## Mechanical **Jack Connector**

Operating Life: Minimum 500 insertion cycles

Contact Material:

Contact Plating: **UL 94VO Thermoplastic** 

**IDC Connector** 

Operating Life: Minimum 100 Reterminations

Contact material: Copper based alloy Contact Plating: Sn/Pb over Ni

Wire Size: 2 x 22-26 AWG solid or stranded

Shutter

Rated for 1000 cycles

## **IDC** Terminations

Suitable for 0.4mm - 0.6mm solid or stranded cable, maximum o.d 1.5mm. Two wires may be terminated for daisy-chain applications.
