

Screen & Stencil Wipes

Product Code: SSW

PRODUCT DESCRIPTION

Electrolube's **Screen & Stencil Wipes** remove both solder pastes and adhesives with equal high efficiency.

SSW100 comprise high wet strength fabric, pre-saturated with a formulated solvent based cleaner. The wipes are easily dispensed from a re-sealable tub which retains the powerful solvent saturation.

PRODUCT USE

Screen & Stencil Wipes enable easy removal, by hand, of solder pastes and adhesive deposits from screens and stencils after screen printing. The wipes exhibit excellent removal of a wide range of solder pastes and adhesives. We recommend that Vinyl or Nitrile disposable gloves are worn when using the product to avoid defatting of the skin, as well as protecting against the effects of lead solder pastes and one part epoxy based adhesives.

FEATURES

- * Solvent based
- * Fast drying
- * Excellent cleaning of pastes and adhesives
- * Non staining
- * Low odour
- * Non flammable

TYPICAL PROPERTIES

Concentrate
