

Item #: **SWL025A-MMF**
DB25 2-to-1 Manual Desktop Switch - MMF
All Leads

Share one DB25 connection between two devices or switch one device between two DB25 connections.

PRODUCT FEATURES

- Tested to 25,000 use-cycles to ensure reliability.

- Share printers, modems, or other peripherals.
- Guaranteed for life

Details:

- Monitor switches monitor system activity via six front-panel LEDs: TX, RX, RTS, CTS, DSR, and DTR. They're perfect for devices with flow-control requirements.

Lockable switches come with a key-operated rotary switch for extra security against unauthorized use.
