

NO: SW - 134	PRODUCT: B3F-6000 Series – Tactile Switch
DATE: November 2020	TYPE: Modification – Change to Box Material

B3F-6000 Series Tactile Switch - Change to Box Material

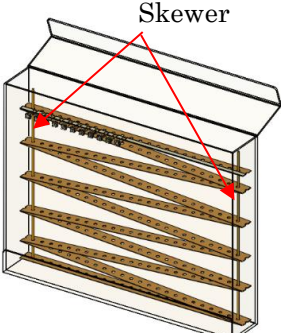

In an effort to improve quality, Omron will change the box material of the B3F-6000 Series from paper to plastic and will add 'skewers' to assist with paper tape alignment and extraction from the box. This change will be effective as of our production in May 2021. There will be no impact on technical specifications, changes to part numbers, package quantities or prices as a result of these changes. The following details will fully explain the changes and part numbers affected. Should you have any additional questions, please communicate with the Switch and Connector product Manager, Patrick Lahey.

Effective Date:

May 2021

Changes:

Before the change	After the change
<p>Packing box material: Paper</p> <p>Appearance:</p> 	<p>Packing box material: Plastic</p> <p>Appearance:</p>  <p>Packing form: Skewers inserted to assist with alignment and extraction.</p> 

B3F-6000 Models: Including, but not limited to, the following:

NOTE: Nomenclature may or may not include "BY OMZ" the end of the part numbers, within the Omron Computer System. This is a factory designation and has no bearing on the specifications.
