

Category 8 inline socket

POE+ Compliant

Category 8 in line socket (SEIL)

This inline socket allows quick and easy termination via tool-less IDC's and "butterfly" levers. It meets all performance requirements for an RJ45 socket up to Category 8. The assembly is Packaged in a convenient snap-together housing and offers the options of straightforward termination for production lines or in the field.

Features

- Transmission performance in compliance with ANSI/TIA-568-B.2-1A specification for Category 8 (Suitable for cable runs of between 5 -30 metres).
- Compliant with IE60512-99-001 – suitable for use with IEEE 802.3at (PoE+) applications
- Suitable for 0.51-0.65 mm/ 22-24 AWG stranded and solid wire.
- Zinc die cast shielded Category 8 keystone offers a tool less termination solution in a compact ABS In line white housing plus grommet.
- Supplied with foil for shielding, plus adhesive pad for semi-permanent installations.

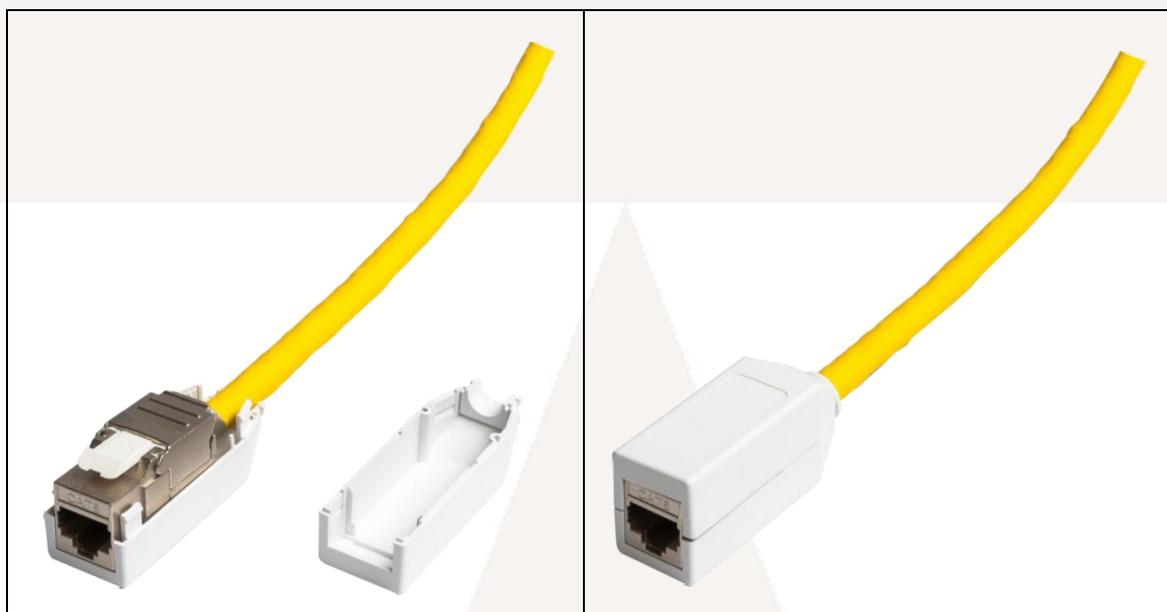

Specifications

- Weight: 20g approx
- Dimensions: 58mm x 20mm x 26mm (Housing 52.5 x 20 x 25mm)
- Colour: Silver FTP connector located in a compact white ABS housing

Packaging: In individual polythene bags and then in bags of 20.
