

10" / 254 mm Heavy-Duty Titanium Coated Tradesman Shears

Product Details

Catalog No.	CW10TM
UPC	037103333285
Set	No
Blade Length	4 in, 10.2 cm
Weight (Catalog)	0.700 lb, 318 g
Packaging	Carded

Features

- Heavy-duty blades feature premium grade stainless steel and are precision engineered for knife-like cutting edges
- Serrated bottom blade grips material as it is being cut for increased cutting control and cleaner cuts
- Titanium coated blades provide corrosion resistance and are 3X harder than steel for durability and tool life
- Control channel accommodates index finger for increased control and cutting stability
- Full metal core extends through the handle for maximum strength and increased durability
- Touch point ergonomics optimize hand and finger contact points in handles to maximize fit, control, and user ergonomics

Overview

Crescent Wiss® Tradesman Shears feature premium-grade steel blades that extend through the handles for twice the strength and ten times the cutting power of standard shears. Their titanium blade coating is three times harder than steel for extra durability and longer edge life. A serrated bottom blade grips material for better control and cleaner cuts, while optimized handle contact points and an index finger “control channel” improve cutting power and increase stability. Touch-point ergonomic handles feature soft textured TPR grips for exceptional comfort and reduced fatigue, even for long or repetitive cutting jobs.
