DESCRIPTION AND PURPOSE OF CHANGE:

Since the IEC 60950 standard is obsolete and will expire on December 20, 2020, Würth Elektronik has submitted its LAN transformers to a re-certification according to the IEC 62368 standard. The UL file number therefore has changed and will be updated in packaging labels. In addition, the UL marking will be added to the marking on the housing of the product.

Due to space restrictions, 749050110 will not have UL marking on the housing.

All products with date code 2021-01-15 and after are affected by this change. The old UL file number will still be valid.

There will be no change in form, fit, function, quality or reliability of the product.
