

Taiwan Semiconductor Customer Notice

Mar. 17, 2021

Dear Customer:

This letter is to inform you that TSC is in the process of implementing a new **PCN21004**. You should have this **PCN21004** already in your possession. 

Please DO NOT delete any existing part numbers you have in your database as we are not fully ready to move to TSC part numbers without packing codes, as we are still working through some internal changes that still need to be completed.

Please keep working to the existing part numbers with packing codes especially for the SMA, SMB, and SMC Matrix parts. These packing codes end with:

M2G, R3G, M4G, R5G, V6G, & V7G, THESE PARTS ARE STILL AVAILABLE FROM TSC.

Last time buys (LTB) for these parts is December 2022.

Future elimination of packing codes will be expanded to further parts, like axial and through-hole parts.

These are included in **PCN21001**. Other SMD packages to be announced (**PCN2100x**).

All new part numbers and datasheets for the goods without packing code will be available by the end of June.

New updates regarding these changes will be communicated to you by your sales contact.

Best Regards

Andy Chao
Vice President of Sales & Marketing

Process Change Notification

This is to inform you that a design and/or process change will be implemented to the affected product(s) and this notification is for your information and concurrence. This change is planned to take effect in 90 calendar days from the date of this notification.

Please work with your local Taiwan Semiconductor Sales Representative to manage your inventory of unchanged product if your evaluation of this change will require more than 90 calendar days.

Please contact your local Taiwan Semiconductor Field Quality Service or Customer Quality Engineer within 45 days of receipt of this notification if you require any additional data or samples.

PCN No: PCN21004

Effectivity:

Expected 1st device shipment date: 2021/5/6

Last order date for manual parts: 2021/2/20

Last shipment date for manual parts: 2021/7/30

Product Category (Description):

All the devices in SMA, SMB and SMC packages which are assembled and tested in Taiwan Semiconductor Yangxin facility (YEW).

Description of Change:

Taiwan Semiconductor Yangxin facility (YEW) will now discontinue manufacturing all the SMA, SMB and SMC devices using manual line as the material supplier for leadframe will stop production. The last time order can only be placed until 20th of February 2021, but production support will be limited to the available remaining supplier material inventory.

All these devices are already processed in high volume production using the automated (matrix) line. This change will improve delivery support and service to all TSC customers.

This is the final notification summarizing all the previous PCNs released related to matrix line conversion as per table below.

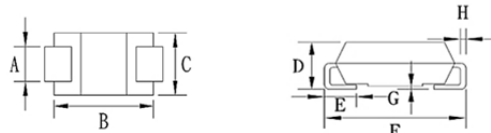

PCN No.	Title
PCN17007-x	A new fully-automated SMA backend assembly line increase
PCN17008-x	A new fully-automated SMA backend assembly line transfer
PCN17009-x	A new fully-automated SMB backend assembly line transfer
PCN17014-x	A new fully-automated SMB backend assembly line increase
PCN17026-x	A new fully-automated SMC backend assembly line increase for Automotive
PCN17027-x	A new fully-automated SMC backend assembly line increase for Consumer
PCN20005	SMDJxx & S15xC Series transfer to fully-automated backend assembly line
PCN20006	SMA,SMB,SMC TVS<10V series of consumer products transfer to fully-automated backend assembly line

This notification also includes the implementation of halogen-free (green) epoxy molding for all SMA, SMB and SMC devices to be compliant to global environmental initiatives in line with IEC 61249-2-21.

Accordingly, the packing material will be standardized to 13inch black plastic reel. In line with this change, the product datasheet will also be revised to simplify the ordering code.

DS (Die Shear)	AEC: Per TSC SPEC. or Supplier SPEC, Cpk > 1.67 or 1.33	MIL-STD-750 Method 2017	5*1	Pass

Conclusion: YEW automated (matrix) line has no difference on the product quality and reliability. The qualification passed the product requirement.

Effect of Change:

No impact in product specification, functionality, quality and reliability. Implementing this change will guarantee Taiwan Semiconductor commitment on environmental protection and customer service through documenting changes in the datasheet.
